Clues

1. an area with layers of gravel and rock that act like sponges; it is where water is stored beneath the surface of the earth
2. the average weather over a long time
3. a tree that loses its leaves each winter
4. an area where a river divides before flowing into a larger body of water
5. a period of weeks or months with almost no rainfall
6. the living things (plants and animals) and nonliving things (air, water, soil, and climate) in a certain area
7. a place where freshwater from rivers mixes with saltwater from the ocean
8. to leave the area because of danger
9. a tree that keeps its leaves throughout the year
10. good for growing things

11. flooding caused by heavy rainfall that can make water in ditches and streams rise very quickly
12. study of the history of Earth, especially the history recorded in rocks
13. water stored naturally in aquifers; may seep out and form springs
14. a large and powerful circle-shaped storm that forms over warm seas
15. electricity moving from cloud to cloud or from a cloud to Earth
16. ore or other substance found naturally in the earth
17. the things that are part of nature
18. a weather event that can be dangerous or cause problems for people, such as an ice storm, flash flood, thunderstorm, tornado, or hurricane
19. something in the natural environment that people can use
20. plants that grow naturally and are not planted by people
21. an early settler in a new place
22. water in the form of rain, snow, sleet, or hail
23. a grassy, wet area that floods with saltwater each day when the sea level rises with the tide
24. a part of the world that borders the tropical zones; describes Alabama's temperate climate
25. the water in rivers, streams, lakes and wetlands
26. a wetland, usually a flooded forest
27. use of knowledge, tools, and skills
28. a measurement of how hot or cold something is; express in degrees
29. a powerful storm with swirling winds and a funnel-shaped cloud
30. a navigable river that can be used for transportation and carrying goods
31. the conditions outside relating to temperature, precipitation, cloudiness, and wind
32. a place that is wet all or part of the year
