## Section 2: West Virginia and Global Trade

### Developing an Economic Plan for West Virginia

**Directions:** West Virginia must continue to look for new industrial opportunities. Review what you know about the industries that now exist in the state as well as industries that may be brought into the state. Propose a new industry for the state and answer the questions that follow regarding what is already present and what must be developed in order to make the industry successful.

Name of industry to be developed: \_\_\_\_\_

1. What does West Virginia already have to support the industry?

a. Natural resources (minerals, waterways, etc.) \_\_\_\_\_
